

NIX.CZ update

Marian Rychtecký

Split, Croatia, 25/03/2025

NIX.CZ

A new office

- 216m high
- (you can use it for navigation to us)
- 2nd ugliest building in a world
- you can stay there
- parking (paid)
- got babies

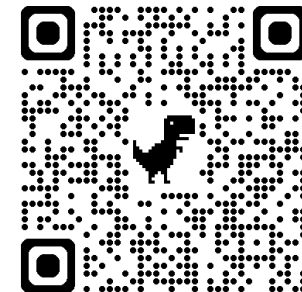

Meet app

Frontend

- NEW** [Propose new time feature](#), which allows you to reschedule a scheduled meeting to a different timeslot without having to delete and re-create a new meeting.
- NEW** [Full-text search on the attendees tab](#)
- NEW** [SubEvents in calendar](#)
- NEW** [iCal sync link](#)
- NEW** [Email invitations for non activated attendees](#)
- NEW** [Important tooltip](#) about hamburger menu and features that are not visible at first glance
- NEW** [Last chance label](#) - Text notification when the meeting is the last chance to meet the initiator (in case of full calendars)

Administrative part

- NEW** Import script for importing new users and creating registrations including subevent registrations from CSV/Excel and google sheets
- NEW** Option to disable concurrent meetings for an event
- NEW** Option to disable the use of custom locations for an event
- NEW** Option to enable displaying a text notification that it is the last chance to meet the meeting initiator in the event details

Where Meet helped

The application helps with arranging meetings worldwide

ON **25** EVENTS YET

EVENT ORGANIZERS

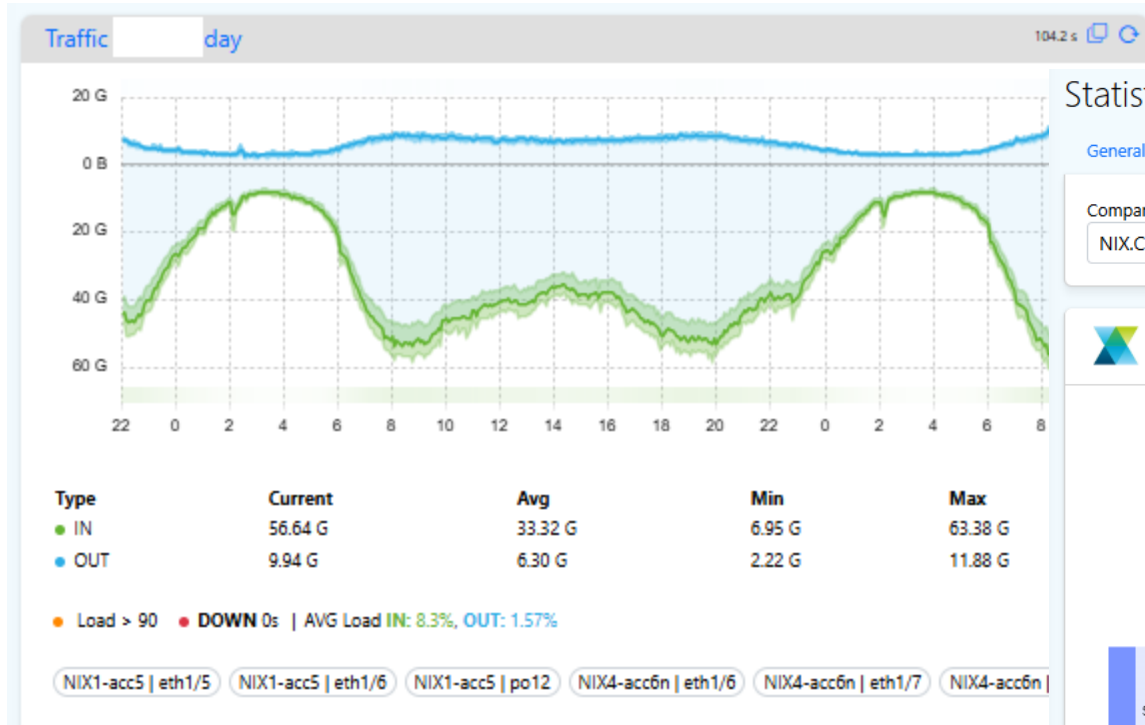

RFC8950, GTSM and TCP-AO

- RFC8950 implemented on RSeS (IPv6 next-hop for IPv4 prefixes)
- ~10 ASNs using RFC8950
- Added GTSM support
- “Added” TCP-AO support (waiting for the kernel support)

Network	↑↓ Next Hop
